Dr. Promethee Spathis was a Visiting Associate Professor at NYU Shanghai. He is also an Associate Professor at Institute of Mathematical Sciences and with the Center for Data Science at NYU. He is an ACM Fellow and an IEEE award at the 2006 Grace Hopper Women in Computing conference.

Olivier Marin is a Professor of Practice in Computer Science, NYU Shanghai. Marin received his PhD in Computer Science in 2003 from the Universite du Havre, France. Marin is an expert in Operating Systems.

Keith Ross is a Professor of Practice in Computer Science at NYU Shanghai. From 2017 to 2020, Wilson was a senior NLP scientist at Nuance Communications. His research interest lies in developing human-in-the-loop machine learning systems for improving the long-term value of personalizations.

Yik-Cheung (Wilson) Tam is a Professor of Practice in Computer Science at NYU Shanghai. From 2015 to 2017, Wilson was a senior NLP scientist at Nuance Communications. His research interest lies in developing human-in-the-loop machine learning systems for improving the long-term value of personalizations.

Jie Xue is an Assistant Professor of Computer Science, NYU Shanghai. Previously, she was a postdoctoral researcher at NYU with the Center for Data Science. Her research interests include machine learning and its application in computer vision and data analysis.

Li Guo is an Assistant Professor of Computer Science, NYU Shanghai. She was the recipient of the 2019 EECS Rising Stars, HP Helion OpenStack Scholarship, and an honorable mention for the ACM SIGMOD best doctoral dissertation award.

Assistant Professor of Computer Science, NYU Shanghai
Dr. Promethee Spathis was a Visiting Associate Professor at NYU Shanghai. He is also an Associate Professor at NYU Shanghai. He also holds an affiliated appointment with the Department of Computer Science at the Courant Institute of Mathematical Sciences, New York University. He has numerous scientific publications in international journals and international conference proceedings. His research interests are related to the Internet technology and protocols. He received the 2018 ACM SIGSOFT Distinguished Paper Award. He is a recipient of the "Best New Investigator" award at the 2006 Grace Hopper Women in Computing conference. He obtained his PhD in Computer Science with a virtual personal assistant. He has six years of research experience in the United States, including with SRI international and Nuance communications Inc. He was a principal PI and manager of the AI for social and emotional development team at Microsoft. His current research interests include topics such as quantum groups, n-dimensional algebra, operads. His ambition is to connect these topics.
