**Postdoctoral Fellow Position at  
NYU-ECNU Institute of Mathematical Sciences at NYU Shanghai**

A postdoctoral position is available in the Partial Differential Equation Research Group at the NYU-ECNU Institute of Mathematical Sciences. This is a joint hire through the Department of Mathematics at East China Normal University. The main research field includes the theory of partial differential equations, calculus of variation and their applications. This will be two-year appointment. Competitive salary will be offered based on candidate qualifications.

Qualified applicants are expected to hold a Ph.D. (or receive Ph.D. before July 2017) in applied analysis, calculus of variations and partial differential equations.

Applications will be reviewed until the position is filled. To be considered, all applicants need to submit a cover letter to describe research interest, a curriculum vitae with a full list of publications, an abstract of the Ph.D. thesis and an official certificate of the Ph.D. degree obtained. Candidates should also arrange for two letters of recommendation to be sent to [xw28@nyu.edu](mailto:xw28@nyu.edu). Evidences of strong research ability in the area mentioned above, including pdf files of selected published papers, may be sent together with the application.

**About the institute:** The NYU-ECNU Institute of Mathematical Sciences at NYU Shanghai is dedicated to the development of a unique research and training environment to advance modern mathematics and its applications. The Institute works in close

partnership with New York University's Courant Institute of Mathematical Sciences and East China Normal University's Department of Mathematics.
